2. Discussion

The Water budget was discussed briefly along with discussion about whether or not to raise the rates and sample calculations using proposed rates to see the effect to a customer's bill. The concern was not to cause bills to become unreasonable while creating a larger revenue stream to repair/improve the water system.

The general fund budget was discussed in detail. See attached proposed budget. The millage rate will be kept at 8 mills.

3. General discussion

Discussion was held regarding a request by a citizen, Ms. Richardson to replace her water meter and refund her water bills for the last two months. Ms. Richardson will be at the November meeting to make this request in person.
